

# OUR TEAM

# Max Verteletskyi

## Co-founder & CEO

Max's visionary mission is to make a positive impact on the world via the power of technologies. Being a serial entrepreneur, he intensively pursue passions for ideating and making ideas come to life along with helping other people to unleash their potential. Max spend extended periods in several countries and consider himself to be a global citizen.

He is co-founder and CEO of Spaceti, an indoor location based solution making buildings smarter, which was founded after a 4-year career as head of Innovation Lab at IBM CEE HQ. He has stated that the goal of Spaceti is to improve everyday life of people and organisations by helping them save time orienting in space and make indoor environments safer and more efficient.
